MELT

PUT IT IN PRACTICE

Take pictures or videos of yourself practicing some of these movements and positions and share them on social media. Don't forget to tag us!

Keep in mind the corrections received each week in class.

Some general things to think of in all of these positions and movements:

- Core engaged
- Feet and ankles pointed all the way through, NOT crunching the toes
- When the feet are on the floor, relax the whole foot into the floor, do not hold tension in the toes or arches
- Equal weight on two feet, weight centered in the ball of the feet when standing on one foot
- Pull up through the backs of the legs
- Turnout, bottom and inner thigh muscles engaged to keep insides of legs facing forward
- Hips and shoulders squared to the front, "headlights" forward
- Shoulders relaxed, press down into the shoulders and back and extend that energy through the arms
- Strong but soft arms
- Have fun!!

Your body is your instrument, rest it! Take time to practice terms, routines, and even take virtual classes, but ALSO take time to relax and take care of your body by stretching, eating well, taking a bath, deep breathing, and more!

CROSSWORD PUZZLE

Across

- 1. slow
- 4. disengaged
- 6. whipped
- 8. bending of the knees
- 9. fast
